HOW CLOSE

Outline: within 1/16", typically less than 1/16" — the widest gap 0" from the nose, where the file is wider than our fit
Rocker: within 1/16", typically less than 1/16" — the widest gap 4 3/16" from the nose
Thickness: less than 1/16" off, typically less than 1/16" — the widest gap 4 3/16" from the nose
Bottom: less than 1/16" off, typically less than 1/16" — the widest gap at the section 12 5/16" from the tail, 6 13/16" out from the stringer
Rails: within 1/16", typically less than 1/16" — the widest gap at the section 37 15/16" from the tail, at the rail
Fins: less than 1/16" off
The rocker and thickness gaps leave out the last 1" at each end, where a file may round its tips over; our side view ends square.

To match the file's rocker exactly, pick a blank on ROCKER and use Customize Rocker to bring it to these figures.
The file's rocker is the finished board's, along the stringer; ours is the board before contours. Under a concave the finished rocker reads more, by the concave's depth there; under a flat, vee or belly the two are the same line.

SUGGESTED BLANKS

One blank from each maker that this board fits in by your App Default Settings, its rocker closest to the file's. The figures are the board's rocker on that blank against the file's ROCKER figures: + is more rocker, - less; the gaps leave out the last inch at each end.

The bottom is read across each of the file's cross-sections, from the stringer to nine-tenths of the way out to the rail, or less where our fitted rail begins (the rail is read below). A section that is all but flat reads as flat.
Read from 3 of the file's 3 cross-sections; the ones within 1" of a tip are left out.

Each rail is read from the outer 3" of the file's bottom, round the rail and over the deck to the stringer, against our board's own cross-section at the same place — our bottom included. Between the three, RAILS blends one rail into the next.
Read from 3 of the file's 3 cross-sections; the ones within 1" of a tip are left out.
Tail Rail Blends From and Ends At are left where a new board puts them.
